Ada Lovelace Day 2021 Resource List

In celebration of Ada Lovelace Day 2021, the Digital Skills and Training team have created a resource list dedicated to bridging the digital gender divide. As Ada Lovelace Day celebrates the achievements of women in science, technology, engineering, and maths (STEM), we thought it was time to shine a light on the barriers that women and girls the world over face when it comes to digital participation - particularly, the abuse and harassment that women face online. The following resources offer more information on the digital gender divide and the steps needed to close it. Content warning: Sexism, violence. © The University of Edinburgh, CC BY SA NC.
